

It's Time To Get Political !

With the Lib/Labs doing nothing and the Greens stuck on 10% its Time To Get Political!

This will maximize pressure on the Lib/Labs to start taking environmental issues seriously.

Here are three environmental parties that you could help in the lead up to the next election

The Greens

"Peace and Non Violence + Grassroots Democracy + Social and Economic Justice + Ecological Sustainability"

Australia's premier green political party is stuck at around 10% of the vote. With more help they maybe they could win more seats? Membership \$30 - \$135 pa.

NewAustralia

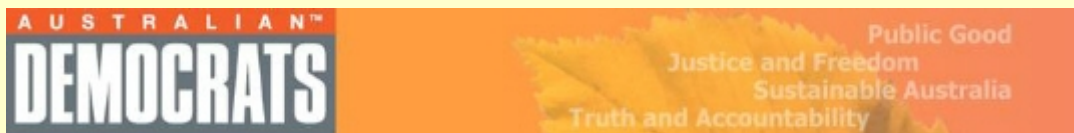

"Green Tax Shift + No Population Growth + More Transport & Health + Cost Effective Self Defence"

Emphasising a **green tax** shift rather than a **green tax** increase, NewAustralia aims to capture new votes from environmentalists who don't like the Tax, Defence or Population policies of The Greens.

Preferences to Greens & Democrats.

Membership is free.

The Democrats

"Public Good + Justice and Freedom + Sustainable Australia + Truth and Accountability"

The Australian Democrats are rebuilding to 'put the middle ground back in to Australian Politics'.

Membership \$25 - \$100 pa.

Note: Australia's preferential voting system means that the total vote for the **Greens, NewAustralia and Democrats** can be pooled to generate the highest possible environmental vote. As each party can only have one platform, having three parties with three different platforms will yield a higher total number of votes than just one green party.
